OLD BUSINESS

South Ball Field Rebuild – Councilor McPhee noted that just 2 bids had been received and given their high dollar amounts, he suggested using an inmate work crew or temporary employees that could perform some of the work the City maintenance crew had so that they would be freed up to take care of the field. He explained they could scrape off the top layer, level it as best they could and bring in new dirt. They could let it settle over the winter and possibly bring in more for the spring. This would be considered a temporary plan, noting it needed much more work; however, nobody was looking to spend that kind of money at the moment.
